ILHAM SALEH

Full-Stack Sofware Developer

📞 +447745756106   @ ilham2saleh@gmail.com   🔗 www.linkedin.com/in/ilham-saleh-430289218   📍 London, UK

SUMMARY

Experienced full-stack developer and proficient in a wide range of technologies and frameworks, including JavaScript, React.js, Node.js, Express.js, PostgreSQL, Prisma, Python, Agile and more. Skilled in both frontend and backend development, with a strong understanding of modern web development principles and best practices.

During my tenure, I have successfully led the development of multiple projects from conception to delivery, collaborating closely with cross-functional teams to translate client requirements into scalable and feature-rich solutions. My expertise in frontend technologies enables me to create intuitive user interfaces and engaging user experiences, while my backend proficiency ensures seamless data management, processing, and storage.

EXPERIENCE

React Full Stack Developer

Primesoft   📅 10/2023 - Present   📍 Uzbekistan | Remote

Upwork is a leading global freelancing platform that connects businesses of all sizes with talented independent professionals offering various service.

- Developed and maintained user-friendly and responsive web applications using React.js for the frontend and Node.js for the backend.
- Collaborated closely with UI/UX designers to translate design mockups into interactive and engaging user interfaces.
- Integrated RESTful APIs and third-party services to enable dynamic data retrieval and interaction with external systems.
- Implemented authentication and authorization mechanisms using JWT tokens to ensure secure access to sensitive resources.
- Demonstrated ability to work independently as a freelancer while also collaborating effectively with clients and team members to achieve project goals.
- Actively participated in Agile development methodologies, including daily stand-ups, sprint planning, and retrospective meetings, to ensure project deadlines and goals were met effectively

Front End Developer

BT Group   📅 07/2021 - 10/2023   📍 London, UK

BT Group is a multinational telecommunications company headquartered in London, United Kingdom. With roots dating back to the establishment of the first telecommunications company in the UK in 1846, BT has evolved into one of the world's leading providers of communications services.

- Proficient in developing modern, responsive web applications using React.js
- Experience in building reusable and scalable React components for complex user interfaces
- Skilled in state management libraries such as context API for managing application state effectively
- Strong understanding of JSX syntax and its integration with JavaScript to create dynamic UI components
- Familiarity with version control systems like Git for collaborative development and code management
- Organized and facilitated office events, meetings, and conferences, ensuring seamless execution and positive experiences for attendees
- Experience with testing frameworks such as Jest and React Testing Library for writing unit tests and ensuring code quality and reliability

MY LIFE PHILOSOPHY

The only way to do great work is to love what you do. - Steve Jobs
